Ihre Experten für  
Garten & Landschaft

## Experience nature

Landscape gardeners use and take care of plants, pave paths and squares, design, renovate and maintain gardens and parks, green cities and practice environmental protection. Landscape gardeners have one of the most versatile professions. Here you will find a brief overview of this profession and the career prospects. Interested?

Welcome to your future training place!

## What do landscape gardeners do?

- Design outdoor areas for public buildings in residential and housing developments
- Create parks, green city centres
- Build and maintain sports fields and golf courses
- Build and maintain recreational facilities and playgrounds
- Design and maintain domestic gardens, terraces, garage driveways, green roofs, and ponds
- Carry out work in the context of nature conservation and landscape maintenance
- Work with stones, water, plants, and wood
- Work outdoors – interact with nature

These are just a few examples of the diverse work carried out by landscape gardeners. There are also many opportunities for further training and specialization that you can take advantage of during your career.

One thing is certain: landscape gardening is a green profession with a bright future!
